EU Declaration of Conformity

Pursuant to Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR)

Declaration Number: AIL-PPWR-2026-DOC-001

Date of Issue: July 30, 2026

Place of Issue: Nairobi, Kenya

1. Manufacturer Identification

Allpack Industries Limited, a leading manufacturer of corrugated packaging solutions, hereby declares its compliance with the European Union's regulatory framework for packaging sustainability. The company is headquartered at Mombasa Road, Mavoko Municipality, P.O. Box 3741, 00506, Nairobi, Kenya. All inquiries regarding this declaration may be directed to the Sustainability Focal Point at info@allpack.co.ke.

2. Statement of Responsibility

This Declaration of Conformity is issued under the **sole responsibility** of Allpack Industries Limited. We affirm that the packaging products described herein have been designed, manufactured, and assessed to meet the rigorous sustainability and safety requirements mandated by the European Union.

3. Object of the Declaration

The object of this declaration encompasses the high-quality **Corrugated Cartons** produced by Allpack Industries Limited. These include Regular Slotted Cartons (RSC), Die-cut Boxes, and specialized transit packaging designed for the Fast-Moving Consumer Goods (FMCG), horticulture, and floriculture sectors. The packaging units are primarily composed of **FSC-certified corrugated paperboard**.

Product Category	Material Type	Intended Use
Corrugated Cartons	Paperboard (FSC)	Transit & Retail Packaging
Die-cut Solutions	Paperboard (FSC)	Custom Product Protection

4. Regulatory Compliance

The products identified above are in full conformity with **Regulation (EU) 2025/40** of the European Parliament and of the Council concerning packaging and packaging waste. This conformity is supported by technical documentation maintained at the manufacturer's premises, demonstrating adherence to the following harmonized standards and technical specifications:

"The packaging is designed and manufactured in accordance with EN 13430 (Recyclability) and EN 13428 (Source Reduction), ensuring that every unit contributes to a circular economy while maintaining structural integrity and product safety."

5. Sustainability and Technical Requirements

In accordance with Articles 5 through 12 of the PPWR, Allpack Industries Limited confirms the following technical attributes:

- **Substances of Concern:** All packaging units comply with Article 5, ensuring that the total concentration levels of lead, cadmium, mercury, and hexavalent chromium do not exceed 100 mg/kg. Furthermore, the materials are free from PFAS substances above regulated thresholds.
- **Recyclability and Circularity:** Pursuant to Article 6, our corrugated solutions are "Design for Recycling" (DfR) compliant. The use of bio-based fibers ensures 100% recyclability within standard paper recycling streams across the Union.
- **Packaging Minimization:** Under Article 9, Allpack utilizes an **Excellence System** to optimize packaging weight and volume. This ensures that only the minimum material necessary for safety and functionality is utilized, thereby reducing the overall environmental footprint.

6. Corporate Commitment

Allpack Industries Limited remains dedicated to environmental stewardship, evidenced by our **Net Zero by 2025** target and our achievement of diverting 99% of operational waste from landfills. Our manufacturing processes are powered by a 22% renewable energy mix, including a 550-kWh solar photovoltaic farm.
