Who We Are

Allpack Industries Limited is a leading manufacturer of corrugated cartons. It was established in 1992 and over the years, has adapted to the growing and changing needs of the market and is committed to achieving world-class manufacturing standards.

By investing in the new modern machinery, Allpack continues to enhance productivity and efficiency in product delivery whilst adhering to international standards. We manufacture durable cartons and packaging bags of all sizes, styles, and shapes. Our packaging products range from polypropylene bags, dairy sector cartons, fast-moving consumer goods (FMCG) sector cartons, horticulture sector cartons, poultry and meat sector packaging, and floriculture cartons.

Our Commitment

Sustainability is at the core of our operations, and we have adopted innovative initiatives to ensure that we serve our stakeholders sustainably. Our programmes focus on our people, our environment, and the communities around us.

Being the first local company to be certified by the Forest Stewardship Council, we ensure that all the raw materials come from well-managed sustainable forests.

This sustainability report highlights the actions that Allpack has undertaken to integrate the United Nations Sustainable Development Goals (SDGs) into the business's strategy and operations. Allpack commits to sharing this information with its stakeholders, the report covers an overview of the year 2021.

Energy

7 AFFORDABLE AND CLEAN ENERGY

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

OUR COMMITMENT

Reduce and optimize energy usage across our operations.

OUR TARGET

40% reduction in energy consumption by 2025.

OUR ACHIEVEMENT

Allpack has reduced energy usage by **21%** for biofuel from 2014.

OUR INITIATIVES

Comprehensive energy audits are undertaken to monitor energy consumption and identify opportunities for energy efficiency.

The **550KWp** solar power project has continued to ensure an increase in carbon savings.

Biomass boiler improvements have resulted from the use of quality briquettes, improved maintenance, servicing and training of staff on efficient practices.

Water

6 CLEAN WATER AND SANITATION

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

OUR COMMITMENT

Allpack continuously monitors and improves process efficiencies to use water efficiently.

OUR TARGET

20% water reduction by 2025.

OUR ACHIEVEMENT

We registered a **11.6%** decrease in water consumption through the efficient use of water across all our operations.

OUR INITIATIVES

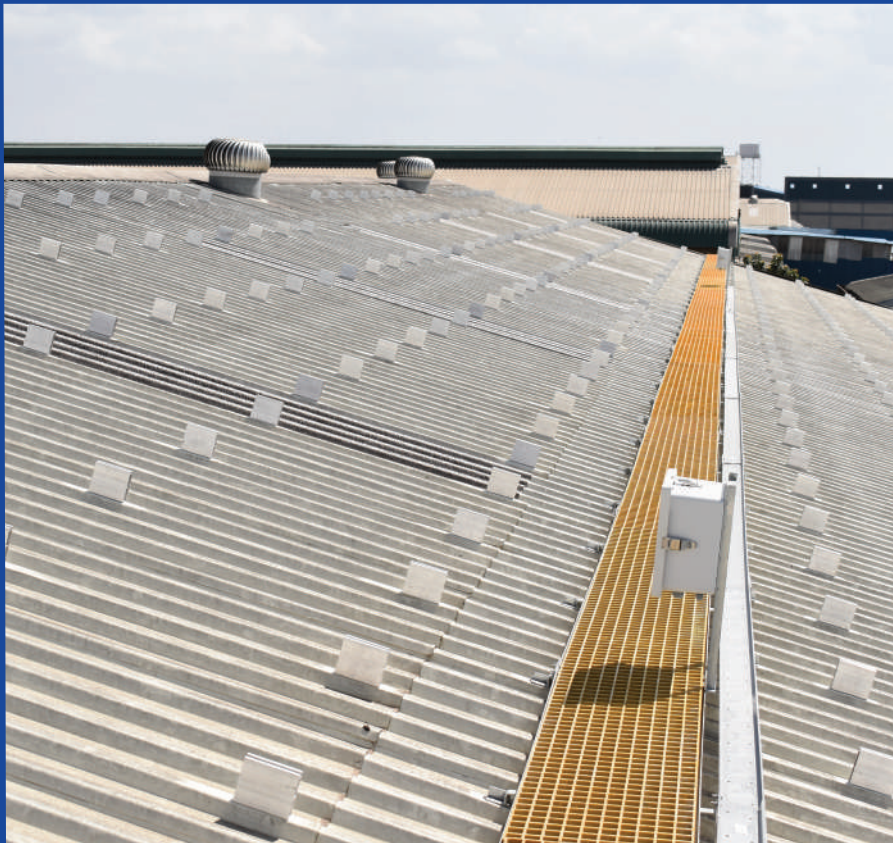

Water efficiency improvements have been noted from the increased submetering of water to understand consumption.

Efficient use of water for cleaning.

Energy

Allpack installed a **550KWp** solar power project at the factory which is powered by **1400** solar panels. It offsets nearly one-quarter of the plant's energy demand and eliminates **90750** tonnes of CO2 emissions annually.

Before installation of the solar panels.

After installation of the solar panels.

Waste

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

15 LIFE ON LAND

OUR COMMITMENT

To reduce the amount of waste going to landfills, through proper disposal techniques including segregation reusing and recycling of waste generated at the factory.

OUR TARGET

Zero waste to landfill by 2025.

OUR ACHIEVEMENT

97.7% of waste has been diverted from landfills.

OUR INITIATIVES

Increased segregation of waste to ensure all waste streams are identified, separated and diverted from landfills.

Improvements in the tracking of our waste.

Continuous training on waste management for our staff.

Tree Growing

13 CLIMATE ACTION

15 LIFE ON LAND

OUR COMMITMENT

Conserving the environment within the community in which we operate through tree conservation, restoration, and reforestation.

OUR TARGET

80% survival of trees planted.

OUR ACHIEVEMENT

The survival rate of the trees planted at Mount Kenya, Lower Imenti is currently **90%**.

OUR INITIATIVES

Allpack in partnership with the Mount Kenya Trust, planted over **2500** trees of various species at Mount Kenya, Lower Imenti.

On World Environment Day, Allpack planted trees at the factory.

Tree Growing
